Crestmark Bank, a national provider of working capital solutions to small- and mid-sized businesses, has provided the following financing solutions:

- \$2,500,000 to a Michigan custom plastic injection molder for the automotive industry used to pay off a line of credit
- \$500,000 to a metal stamping company for the automotive industry based in Michigan
- \$750,000 to a Michigan company who manufactures molds, dies, fixtures and models for clients primarily in the automotive and aerospace industries which was used to pay off a line of credit and term debt
- \$950,000 to a company based in Michigan, who manufactures and sells circuit boards to the auto industry, as well as other manufacturing industries which provided working capital
- \$850,000 to a California distributor of electronic parts and supplies
- \$819,000 to a manufacturer of tubing products used in the automotive industry and structural tubing used for trailer hitches based in Michigan to help pay off an existing line and acquire a piece of equipment
- \$2,000,000 to a Minnesota distributor of 2-way hand-held communication equipment to big-box retailers and smaller enterprises, who also provides wireless alarm monitoring services
- \$750,000 to a Michigan manufacturer of prototype tooling and parts primarily used for the automotive industry to help with cash flow

Crestmark Commercial Capital Lending, a wholly owned subsidiary of Crestmark Bank and located in Baton Rouge, LA, is pleased to announce these recent fundings:

- \$700,000 to an oil well repair and service company based in Texas, to pay off current bank and provide additional working capital
- \$200,000 to a Florida reseller of computer media storage devices to government and universities who needed working capital
